

# Iceland ultra low humidity dry cabinet

What is the best dry cabinet for MSL components & desiccators?

McDry- Ultra low humidity cabinet (1%RH) McDry dry cabinet for MSL components and desiccators provide optimal ultra-low humidity and moisture-proof storage for IC packages.

Why should you use mcdry dry cabinet for MSL components & desiccators?

McDry dry cabinet for MSL components and desiccators provide optimal ultra-low humidity and moisture-proof storage for IC packages. Moisture-sensitive components when safely and properly stored in McDry have an indefinite floor-life and micro-cracking or pop-corning during the reflow process is not an issue.

What is ultra low humidity storage?

Ultra-low humidity storage of IC's for cabinets that are not accessed frequently. Long-term storage of IC packages and electrical components. Specifications: (Note: Specifications are subject to change due to product improvement.) Shelves are adjustable and can hold 220 lbs (100 kgs.)

How long does a mcdry dry storage cabinet last?

McDry Dry Storage Cabinets maintain ultra-low humidity levels under the recommended indefinite safe floor life guideline of dry storage at 5% RH or less. For storing moisture-sensitive components and materials in the McDry cabinet, the floor life of the parts during the SMT assembly process.

Are mcdry dry cabinets IPC/JEDEC J-STD 033D & IPC 1601?

MSD dry smart dry cabinets conform to IPC/JEDEC J-STD 033D and IPC 1601 Guidelines. McDry dry cabinet for MSL components and desiccators provide optimal ultra-low humidity and moisture-proof storage for IC packages.

What is a good humidity level for a kitchen cabinet?

This will allow ambient air to flow into the cabinet and may raise the RH level. To limit this from occurring and to keep the relative humidity inside of the cabinet below 5% or 10% as specified, a consistent, ultra-low humidity storage level is recommended.

McDry Ultra-Low Humidity Storage Cabinet. McDry dry boxes, dry cabinets and desiccators provide optimal ultra-low humidity and moisture-proof storage for IC packages. Moisture-sensitive components when safely and properly stored in McDry have an indefinite floor-life. Micro-cracking or pop-corning during reflow process is not an issue.

Dr. Storage F1 ultra low humidity dry cabinet is specially designed for moisture sensitive devices (MSD) of level 4, 5, 5A, or 6. The F1 dry cabinet maintains internal humidity level 1%RH and is ideal for moisture-proof and anti-oxidation storage applications to prevent corrosion, mold and deterioration of stored component parts
