

Identify the authenticity of Sungrow photovoltaic panels

Is Sungrow a good solar inverter?

Sungrow is the most popular solar inverter currently sold in Australia, with a good local technical support team and a long history in Australia. The key attributes of a solar inverter are: They have been independently reviewed by Solar Quotes here. Are there different models or types of Sungrow Solar Inverters available, and how do they compare?

How many solar inverters does Sungrow produce a year?

In 2021 they shipped 47GW (gigawatts) of solar inverters or around 30% of world production. That's almost two kilowatts (kW) of capacity per Australian. Most were for large solar farms, but they also produced 50,000 string inverters for residential and commercial use. Sungrow says it now has 145GW of annual inverter production capacity.

Is Sungrow the world's largest solar inverter manufacturer?

Sungrow is a giant company. In 2021 they were the world's largest solar inverter manufacturer. Last year they were only beaten by Huawei. This year, it's up in the air. In 2021 they shipped 47GW (gigawatts) of solar inverters or around 30% of world production. That's almost two kilowatts (kW) of capacity per Australian.

Does Sungrow have isolarcloud?

Sungrow's iSolarCloud app provides a good basic level of solar monitoring, however by adding on Solar Analytics you will increase your solar savings (see benefits below). Sungrow inverters all have WiFi connection to show you your solar energy generation.

Does Sungrow integrate with solar analytics & isolarcloud?

Solar Analytics and Sungrow have integrated to provide an enhanced experience and increased savings for solar owners. Sungrow's iSolarCloud app provides a good basic level of solar monitoring, however by adding on Solar Analytics you will increase your solar savings (see benefits below).

How do I know if my Sungrow inverter is working?

You can also see some basic information directly on the LCD screen on the front of your Sungrow inverter. A typical Sungrow inverter will have an LCD display panel on the front similar to the below. This screen will show you how much power is being generated right now, and the status of the inverter.

Most inverters listed below are from well-established manufacturers and are described in more detail in our best solar inverters article. The latest inverters added to the list in 2023 are the next-generation inverters from Sungrow, ...
