How is energy used in Indonesia?

Total energy supply (TES) includes all the energy produced in or imported to a country, minus that which is exported or stored. It represents all the energy required to supply end users in the country.

Should Indonesia extend electricity access?

Ambitious government plans to extend electricity access have yielded fruit in Indonesia, where the number of people without access declined from around 100 million in 2000 to around 23 million in 2016 even with a population increase of almost one-quarter.
