

Infinity solar energy Trinidad and Tobago

What are the solar photovoltaic systems in Trinidad and Tobago?

In Trinidad and Tobago and the wider Caribbean there is an abundance of natural energy from the sun. In Trinidad and Tobago a typical day can be insolated for 5-6 hours of sunlight. This makes the Solar photovoltaic (PV) systems very applicable for Trinidad and Tobago. The cost for these systems are constantly coming down.

What is the future of solar energy in Trinidad and Tobago?

The gradual shift from energy generation using conventional sources, such as coal and natural gas, to clean energy is expected to drive the Trinidad and Tobago solar energy market. Various government initiatives are expected to create a significant amount of opportunities in the market.

Is Trinidad ready for more solar power?

Every person involved in the process has certified solar installation training. Didn't know that was a thing in Trinidad, right? We're definitely ready for more solar power to make a better, more eco-friendly and sustainable world for us all. We understand that solar power is a bit more expensive than other power systems.

What is the electricity generation mix in Trinidad and Tobago?

As of 2020, the electricity generation mix in Trinidad and Tobago is dominated by fossil fuels such as natural gas, coal, and diesel. However, increasing demand for clean and stable energy is expected to be the primary driver for the solar power generation market in the country.

Why should you choose trifactor solar?

WHY CHOOSE US? Trifactor Solar is comprised of persons who have established their competence and good reputation in the respective fields undertaken by the company. They deliver, in no small measure, a wealth of knowledge, skills, experience and commitment to get the job done.

Through solar photovoltaic (PV) installations, policy support, and a public awareness campaign, the GCCA+ Initiative is paving the way for a sustainable energy future in Trinidad and Tobago. It's not just about installing solar panels; it's about transforming lives, protecting the environment, and strengthening the economy - a blueprint for ...
