

What is the Iraq-French energy deal?

Image Credit: Bloomberg Baghdad: Iraq and French oil major TotalEnergies on Monday signed a long-delayed \$27 billion energy deal that aims to increase oil production and boost the country's capacity to produce energy with four oil, gas and renewables projects.

Is foreign help enough to fix Iraq's energy problems?

Foreign help is not enough to fix energy issues, domestic reform is necessary. This past July, Iraq and France's TotalEnergies finalized the Gas Growth Integrated Project, a \$27 billion energy deal aimed at Iraq's natural resources and improving the country's electricity supply.

How much natural gas did Iraq produce in 2022?

Iraq consumed significantly more natural gas than it produced in 2021, primarily for electric power generation. The country also flared over 630 billion cubic feet (Bcf) of natural gas in 2022 due to inadequate pipeline and processing infrastructure, making it the second-largest flaring country globally.

How does Iraq generate electricity?

Iraq's electricity generation primarily depends on fossil fuels. In 2021, natural gas was the largest source at 57.3% of the total, followed by oil at 36.7%. Renewable energy, mainly from hydroelectric power, contributed 5.9%. As of 2023, the 30 gigawatts (GW) of installed capacity cannot meet summer peak demand.

Why is energy important in Iraq?

Energy in Iraq plays a crucial role in both the national economy and the global energy markets due to the country's vast oil reserves and significant status within the Organization of the Petroleum Exporting Countries (OPEC). Iraq holds abundant oil and gas resources and has strong solar PV potential.

Does Iraq need more foreign investment?

Iraq has struck a major deal with France's TotalEnergies company, bringing in \$27 billion in foreign investment to build up natural resource development and electricity supply. Iraq has long desired greater foreign direct investment. Its new government inherited the work of predecessors and is finally seeing results.

The Iraq Energy Institute (IEI) would like to thank all participants, experts and Task Force members of the "Water Resources Management Workshop" for their valuable presentations and contributions to produce this report. IEI also extends its appreciation to Alsincere -Kindi Society

By John Lee. QatarEnergy is to take a 50-percent stake in the TotalEnergies solar energy project in Iraq: Partnership Agreement: QatarEnergy has signed an agreement with TotalEnergies for a solar power project in Iraq as part of the Gas Growth Integrated Project (GGIP). Stake Distribution: QatarEnergy will acquire a 50% stake in the project, with

The seriousness of the energy price situation and its impact on food and drink manufacturers continues to be a top focus at the FDF. Many of our companies are facing 400-500% rises in their energy bills, while others report suppliers are demanding huge security deposits or bank guarantees to secure fixed contracts.

This is important because energy use is around 50% of the cost structure for desalination and Iraq continues efforts to reduce "barrel burn" in thermal power plants to free up oil for export. While the burning of fuel is used for MSF, both MSF and RO have high electricity requirements but even by this metric, RO is more efficient.

Iraq's energy sector is heavily dependent upon oil, with revenues from crude oil exports accounting for over two-thirds of the country's GDP, and the country's significant gas reserves ...

Iraq holds the 12th largest natural gas reserves in the world, estimated at 131 trillion cubic feet (Tcf) at the end of 2022, predominantly located in large oil fields in the south and mostly associated with oil production. Despite these substantial reserves, Iraq faces regulatory, investment, and infrastructure challenges, which have kept natural gas production largely unchanged since 2016. The majority of Iraq's natural gas, about two-thirds, is produced as a by...

3. MOE has already invested about \$ 24.06 billion us dollar for the period 2006-2013 as follows: \$13.97 billion for the new power plants installations with total capacity equal 18500 MW . \$3.16 billion for the exist power plants rehabilitations. \$3.85 billion for the transmission sector, installation of new 400 & 132 kV

VP, Commercial & Government Affairs - Iraq Srood Mukhtar Mukhtar is the Vice President of Commercial and Government Affairs (Iraq) at HKN Energy and serves as the Vice Chairman of the Management Committee for the Sarsang and Atrush blocks in the Kurdistan Region of Iraq.

Formed in January 2008 (United Kingdom), Iraq Energy Institute (IEI) is an independent non-profit policy institute which aims to provide a professional platform to streamline efforts, to put theory into practice, and to synthesise proposed solutions to meet the policy, fiscal, technical, and political challenges that are currently impeding the progress of development in Iraq's energy ...
