

JA Solar Photovoltaic Panel Origin

Where does JA Solar sell its products?

JA Solar Holdings also sells its products to customers in Germany, Italy, Sweden, Spain, South Korea, and the United States. The company was founded in 2005 and is based in Beijing, in the People's Republic of China.

Who is JA Solar?

JA Solar is the world leader in high-performance photovoltaic products. The company has been rated in the Global Top 500 New Energy Enterprises and Fortune China 500 for several years. The goal of JA Solar is to develop solar systems that benefit customers worldwide. Solutions for a number of applications can be found with JA Solar.

Is JA Solar a global company?

Over the years, JA Solar's influence has expanded globally, and its footprint now extends to several continents, indicating its prominent role in the worldwide solar market, and the company's ability to cater to diverse customer requirements. In May 2023, the company released its next-generation DeepBlue 4.0 Pro solar panels.

What is the capacity of JA Solar?

The overall capacity supplied by the company is 80 GW. JA Solar is the world leader in high-performance photovoltaic products. The company has been rated in the Global Top 500 New Energy Enterprises and Fortune China 500 for several years. The goal of JA Solar is to develop solar systems that benefit customers worldwide.

How much do JA Solar panels cost?

The cost of solar panels from JA Solar is quite competitive compared with other solar panel companies. Our research has found that a 585W panel, for instance, is priced at around \$90. Sharp sells a similar model for around \$40 more. However, JA Solar's product warranties only last 12 years - half that of many other manufacturers.

Is JA Solar a Tier 1 manufacturer?

JA Solar is classified as a Tier 1 manufacturer by BloombergNEF. This means it employs state-of-the-art robotic techniques to oversee the production process, minimising or completely eradicating errors associated with human intervention. Tier 1 panels are also crafted from the highest quality silicon, boosting the solar panel's performance.
