Could a solar farm boost Jersey's energy security?

Bosses said the plans for the 2.7 hectare site, meant electricity would be returned to the grid in a process which would "increase Jersey's energy security". A solar farm in Jersey could power 17% of the parish's homes if planning is approved, electricity bosses say.

What do people in Jersey think about solar farms?

Jersey Electricity (JE) is asking people in St Mary what they think about proposals for two solar farms. The solar farms would produce enough energy to power nearly 1,200 homes in Jersey, said JE. Land earmarked for the siting of the panels would continue to be used for grazing and growing crops, it said.

How many homes can a solar farm power in Jersey?

The solar farms would produce enough energy to power nearly 1,200 homes in Jersey, said JE. Land earmarked for the siting of the panels would continue to be used for grazing and growing crops, it said. The company is holding a community consultation from 10:00 to 20:00 BST at St Mary's Parish Hall where people can view the site plans.

Will the price of solar energy come down in Jersey?

The JE boss says that if similar developments are built in other parts of the island, then the price of electricity produced by solar panels is more likely to come down. JE currently has two other sites in Jersey earmarked for ground-mounted solar energy production and is also working on installing more roof-based solar panels across the island.

Does Jersey have solar panels?

JE currently has two other sites in Jersey earmarked for ground-mounted solar energy production and is also working on installing more roof-based solar panels across the island. Earlier this week, JE increased islanders' electricity tariff by 7.5% from January 2025, adding around £2 extra per week to the average household bill.

Who is Jersey electricity?

Founded in 1924, Jersey Electricity has grown to become a dynamic power utility providing clean, low-carbon electricity. Learn more about the roles and responsibilities of the Board and our Board Committees Discover more about what we stand for, what we do and the people that run the business.

The head of the Jersey Farmers' Union says a planned new solar farm in St. Mary "could be a really good thing". Jersey Electricity has been given the go-ahead to fill a field with solar panels...
