1.1. Methodology. This study reviews the literature to construct, deconstruct and contextualise the concept of energy democracy in Lesotho. The country has sparked interest because of its ailing electricity sector and its failing attempts to find a solution to its renewable energy sector problems, as evidenced by the failure to privatize the state-owned utility, ...

Both the CO₂ capture and electrolysis solutions are provided by Finnish project partners, Kleener Power Solutions Oy and Carbonreuse Finland Oy as well as Convion Oy and Elcogen Oy, respectively. VTT will provide the fuel synthesis unit and technology and Neste carries out upgrading of the synthetic crude oil into fuel products fulfilling the ...

As part of the U.S. Government's COVID-19 response, Power Africa awarded over \$2.6 million in grants to electrify health facilities, allocating funds to nine solar energy companies to provide urgently needed off-grid power to over 250 rural clinics in Lesotho and eight other sub-Saharan African countries, primarily in isolated areas beyond the grid.

Both the CO₂ capture and electrolysis solutions are provided by Finnish project partners, Kleener Power Solutions Oy and Carbonreuse Finland Oy as well as Convion Oy and Elcogen Oy, respectively. VTT will provide the fuel synthesis unit and technology and Neste carries out upgrading of the synthetic crude oil into fuel products fulfilling the ...

E-fuel consortium will enable the production of sustainable fuels for transportation from CO₂ to increase energy self-sufficiency and to reach the low carbon society targets. A value chain from hydrogen produced by renewable electricity and captured CO₂ to paraffinic drop-in transportation fuels is developed in the E-fuel project. Electrofuels (e-fuels) are needed in addition to other ...
