

Liechtenstein hager energy

Who owns Hager energy?

The new business unit operates under the name Hager Energy and will address specific market segments in Europe relying on the two strong, complementary brands E3/DC - a subsidiary of Hager Group- and Hager. The new business unit, Hager Energy, is under the leadership of Andreas Piepenbrink, CEO and Rémy Becher, COO.

What is energy in Liechtenstein?

Energy in Liechtenstein describes energy production, consumption and import in Liechtenstein. Liechtenstein has no domestic sources of fossil fuels and relies on imports of gas and fuels. The country is also a net importer of electricity.

What's new at Hager energy?

The new business unit, Hager Energy, is under the leadership of Andreas Piepenbrink, CEO and Rémy Becher, COO. Hager Energy will regroup team members who are already working on energy management projects. "We foster agility by bringing together E3/DC and Hager Group teams with common objectives and priorities.

Is Liechtenstein a solar power station?

Samina Power Station, currently the largest of the domestic power stations, has been operational since December 1949. In 2011-2015, it underwent a reconstruction that converted it into a pumped-storage hydroelectric power station. In recent decades, renewable energy efforts in Liechtenstein have also branched out into solar energy production.

What percentage of Liechtenstein's electricity comes from non-renewable sources?

In 2016, non-renewable sources accounted for 67,35 % and renewable sources for 32,47 % of Liechtenstein's electricity supply. Energy production from non-renewables consisted of 56,88 % foreign imports of electricity produced by nuclear power, and 0,65 % of electricity produced in Liechtenstein from imported natural gas.

How do Liechtenstein municipalities get the energy City label?

Liechtenstein municipalities can obtain the Energy City label if they continuously ensure efficient energy use, increase investments for renewables, including solar energy, wind energy and hydropower, and promote environmentally compatible mobility. The certificate is awarded by the Energy City Sponsoring Association.
