

Lithuania smartflower solar panel

What is smartflower solar?

SmartFlower Solar produces unique, ground-mounted solar panel systems that include a sun tracker and a number of other high-tech features. This 'smart' solar panel system is an all-in-one, self-sustaining system that differs greatly from the traditional monocrystalline or polycrystalline rooftop panels.

What are the features of the smartflower solar panel system?

The SmartFlower solar panel system comes with a number of features. They include: Unique Design: The SmartFlower solar is made with a unique design that directly influences its functionality. It consists of 12 'petals' that open up at the dawn of a new day when the sun is out.

Are smartflower solar panels a good choice?

If you care about design and ease of use more than cost-effectiveness, and also do not need to cover all of your energy needs with one system, then the SmartFlower solar panel system can be a good option for you. Alternatively, a rooftop or traditional ground-mounted solar panel system will be much more affordable and practical for most consumers.

What makes a smartflower a 'smart' Solar System?

It comes with a convenient number of features, and its unique with ground-mounting solar panel systems. It also includes a sun tracker and more impressive high-tech features, that makes the 'smart' in its name ideal. The smartflower has a multi-purpose system that is quite self-sustaining and distinctive from the traditional rooftop panels.

What is the warranty on a smartflower solar panel system?

The SmartFlower solar panel system has a system warranty of 5 years and a module performance warranty of 25 years. This also differs from other solar panel systems that have 20 to 25-year warranties for both the system and performance. Even most ground-mounted systems with sun-tracking capability have 10-year system warranties.

Where is smartflower Solar Flower installed?

However, it has been installed at a handful of U.S. houses and organizations like the Detroit Zoo and Mary Baldwin University. The U.S. division of Smartflower is currently based in Boston, Massachusetts. How is the Smartflower solar flower different from other solar options?

Before you qualify for all incentives and tax credits, the SmartFlower solar panel system costs between \$25,000 and \$30,000, with an average installation cost of \$27,000. There are two versions to pick from, ...
