

Malta intelligent energy solutions

What is miema (Malta Intelligent Energy Management Agency)?

About Us MIEMA (Malta Intelligent Energy Management Agency) is a non-profit, public-equivalent body initially set up to promote energy efficiency and the use of renewable energy sources.

What is energy in Malta?

Energy in Malta describes energy production, consumption and import in Malta. Malta has no domestic resource of fossil fuels and no gas distribution network, and relies overwhelmingly on imports of fossil fuels and electricity to cover its energy needs.

Can micro-grids help small communities become energy independent?

This project aims to provide evidence that micro-grids can help small communities become energy independent by overcoming technical or administrative hurdles that hinder their implementation across the Mediterranean area.

Intelligent Energy integrates several technologies and solutions that work together to more easily enhance grid transformation. This can make it easier to use Internet of Things (IoT) devices and services to connect your operations with near real-time data and help simplify some of the complexity of grid modernization.

Applications of PEM Fuel Cells. IE-DRIVE(TM) is Intelligent Energy's (IE) latest high-power hydrogen fuel cell system. Utilising our patented evaporatively cooled (EC) technology, our fuel cells for hydrogen powered vehicles deliver compact, modular systems with fewer components, improved reliability, and reduced system costs. IE have developed two versions of the IE ...
