

Is Mexico a member of the IEA?

Mexico joined the IEA in 2018 as the first member from Latin America. Mexico is strongly committed to energy efficiency as part of its wider energy reforms. Its policy coverage in multiple energy end-use sectors has increased substantially since 2010 and in 2013, Mexico became the first country in Latin America to introduce a fuel economy standard.

Which geothermal resources are under exploitation for electric generation in Mexico?

The current geothermal resources under exploitation for electric generation in Mexico are of hydrothermal type and contained beneath four geothermal fields with an installed capacity of 958 MW (883 MW as running capacity).

Does Mexico have geothermal power?

Geothermal represented 1.7% of the electric capacity in Mexico for public service in 2011, and 2.4% of the country's electric output. 238 production and 26 injection wells were in operation in the four geothermal fields, with a steam output of 60.4 million tons accompanied by 71.7 million tons of brine.

What is Mexico-EU geothermal project?

The latter is a Mexico-EU project focused on non-conventional geothermal resources in Mexico (superhot fluids in the Los Hornos field and Enhanced Geothermal Systems in the Acoculco geothermal zone), whose Mexican part is fully funded by federal funds of the Mexican government.

How many geothermal fields are there in Mexico?

Keywords: Direct uses, geothermal power, geothermal production, geothermal fields, geothermal zones. As of December 2019, the geothermal-electric installed capacity in Mexico is 1005.8 MWe, with five geothermal fields in operation: Cerro Prieto, Los Azufres, Los Hornos, Las Tres Virgenes, and Domo de San Pedro.

Which companies are involved in geothermal energy development in Mexico?

Almost all the professional personnel reported in this column work for the private companies Grupo Dragón (Geodesa) and Grupo ENAL, which up to now have been the most involved and constant private companies in the development of geothermal-electric energy in Mexico, and a minor proportion working for other companies.
