

# Micronesia energy alliance

What are the guiding principles for energy development in Micronesia?

In addition, the policy establishes the following guiding principles for energy development in the Federated States of Micronesia: (1) the spread of benefits to disadvantaged communities, (2) increased public awareness and local capacity, (3) private sector involvement, and (4) community solutions.

Does Micronesia have a state-owned utility company?

state-owned electric utility company. Because the Federated States of Micronesia is so geographically dispersed, three of the four utilities must serve a populous core island or group of islands as well as numerous remote islands; the Kosrae Utility Authority is the only utility that serves a single island.

How does the geography of Micronesia affect electricity?

The single island of Kosrae has an electrification rate of 98%, while Chuuk, spread across seven major island groups, achieves a rate of 26%.<sup>5</sup> Aside from limiting access to electricity, the geography of the Federated States of Micronesia has several other adverse effects on utility operations.

The Global Energy Alliance for People and Planet aims to unlock USD100 billion in public and private financing in order to: Reach 1 billion underserved people with reliable, renewable power; Avoid and avert 4 billion tons of carbon emissions; Drive economic growth, with 150+ million created, enabled, or improved.

Micronesia Climate Change Alliance is a 501c3 grassroots network of individuals and corporations dedicated to creating community centered solutions to climate change. Our mission is to construct the importance of climate change as a threat multiplier to pacific islands.

“Today we have made our commitment to our allies in the Indo-Pacific clear with our historic visit to the Federated States of Micronesia (FSM). The People's Republic of China's (PRC's) threat to U.S. national security remains high as they seek to undo our democratic way of life and undermine our standing as leaders on the international stage ...

Our impact goal for the next year is to develop a 5 year strategic plan with a roadmap outlining the steps we need to take to move towards food security, energy democracy, and creating economies of care. In August, we will be hosting a Just Transition training with five mutual aid, direct action and grassroots nonprofit organizations in Micronesia.

Decolonize and demilitarize Guam + The Marianas &#183; Josh is an activist and community organizer - born, raised, and rooted in the indigenous CHamoru islands of Guam and the Marianas. & lt;br& gt;& lt;br& gt;In 2013 he moved to Portland (OR) to study secondary education at the University of Portland, intending to return home as a public school teacher.
