

What is M-kopa Solar?

Using the pay-as-you-go model popularised by mobile phones, a remarkable Kenyan company, M-Kopa Solar, is providing rent-to-own solar energy products that will help provide cheap solar power to rural homes. The M-Kopa IV Solar Home System includes a solar panel, control unit, three low-energy LED light bulbs (one of which is [...])

Does M-Kopa offer pay-as-you-go solar?

It has been more than ten years since M-KOPA pioneered and launched the pay-as-you-go (PAYG) solar market in its broadest sense. The M-Kopa solar system serves as the heart of the home, providing power for lights, charging, radios, televisions, and refrigerators. Some of the solar options available are described below.

Can M-kopa Solar provide cheap solar power to rural homes?

This article is more than 8 years old. Using the pay-as-you-go model popularised by mobile phones, a remarkable Kenyan company, M-Kopa Solar, is providing rent-to-own solar energy products that will help provide cheap solar power to rural homes.

Where is M-Kopa based?

M-Kopa expanded from its east African base to Nigeria in 2021 and has more recently started operations in Ghana. It is testing the market in South Africa and also running pilot projects to finance electric motorbikes as part of a new e-mobility strategy.

How does M-Kopa work?

For a deposit of \$35, buyers get the system then make 365 daily payments of \$0.43 through mobile money system M-Pesa. When it is all paid off, the system belongs to the buyer outright. M-Kopa has sold about 300,000 units in Kenya, Tanzania, Uganda and Ghana. It sells 500 units a day and it aims to sell 1-million M-Kopa systems by the end of 2017.

How many people does M-Kopa employ?

It employs 650 people in the four countries and a further 1,000 field agents. This seems like a small number against the backdrop of Africa's 1.1-billion population, but M-Kopa is a great example of disruption, not in the technology space but at the business model level.

M-KOPA Solar addresses this challenge. The company was founded in 2011 by former executives behind M-PESA, the world's leading mobile payment platform. It uses an innovative approach to give low-income households in East Africa access to power: it combines mobile payments with GSM sensor technology to enable households to buy a solar home ...
