Why should you choose Maysun solar?

Maysun Solar's solar panels are versatile in application, catering to a wide array of scenarios. Our products are extensively used across commercial and industrial rooftops, residential roofs, ground-mounted power stations, and agricultural photovoltaic systems. Choose Maysun Solar for rapid delivery, expert solutions, and quality you can trust.

How much solar energy does Kuwait use a day?

Kuwait's average solar intake is about 9-11 hours per day with an average daily solar insolation that can reach more than 7.0 kWh/m²/day. This potential solar energy technology can be applied for a capacity credit/factor in power generation, a potential economic returns, and environmental benefits for the country.

For older systems or non-MYSUN solar systems, insurance will be decided on a case-to-case basis. For solar systems > 6kWp, Rs 750/kWp/annum for Gold and Rs 1250/kWp/annum for Platinum shall be charged extra. The above is applicable for grid-connect systems. For Hybrid and Off-grid systems, additional charges may apply.

How can MYSUN help you to install rooftop solar? MYSUN is an online platform lead rooftop solar company which uses engineering, data and analytics to deliver the most suitable and customized solar solutions to residential, commercial and industrial energy consumers.
