Can givenergy be used as a standalone battery system?

Standalone battery system Can also work perfectly as a standalone battery without solar. Charge your system when energy is cheap and green, then discharge when energy is costly and dirty. You must be an approved GivEnergy installer to install GivEnergy products.

Who makes givenergy batteries?

GivEnergy is a UK-based company that specializes in the design and manufacture of energy storage systems. The company offers a range of lithium-ion batteries designed to be used in residential, commercial, and industrial settings. GivEnergy batteries are known for their high energy density, long cycle life, and excellent performance.

What are givenergy batteries?

GivEnergy batteries are available in a range of sizes to meet the needs of different households and businesses. The company offers batteries with capacities ranging from 5.5 kWh to 16 kWh, which can be used for both on-grid and off-grid applications. The batteries can be easily connected in series or parallel to increase the overall capacity.

How many kWh are in a givenergy battery?

The company offers batteries with capacities ranging from 5.5 kWh to 16 kWh, which can be used for both on-grid and off-grid applications. The batteries can be easily connected in series or parallel to increase the overall capacity. GivEnergy batteries are designed to withstand harsh weather conditions and have a long lifespan.

What is the givenergy all-in-one system?

The GivEnergy All in One system 13.5 kWh combines ground-breaking battery and inverter technologies within one product - providing the ultimate in smart energy management. The All-in-One system is capable of supplying an additional 7.2 kW of peak power to the household.

Does givenergy offer a discount?

As such, the installer should pass on the discount to their customer. GivEnergy reserves the right to amend these terms at any time. Cut your energy bills this winter with our half-price inverter offer. Buy a selected battery, and get a 50% discount on its inverter.

The battery cabinet. Each battery cabinet contains 69 kWh of batteries. A display of each individual pack and cell status - for full visibility plus extra control and safety. The GivEnergy PCS - the computer part of your SME battery system. The DC cabinet - installed whenever multiple battery racks are required
