Solar Panel Recycling in North Carolina. Solar panels and their power supplies energize many companies throughout the United States. Today, solar energy is the best sustainable power provider. For example, it improves regional economies, decreases greenhouse emissions, and does not require much upkeep. The solar business is always developing.

North Macedonia-based PiKCELL Group announced on Facebook that it would build a factory for the production of state-of-the-art photovoltaic panels in the Technological Industrial Development Zone (TIDZ) in Tetovo with German company AE Solar. The construction is planned to begin in October, and the plant should start production as early as March.

Mey Energy recently completed a 55 MW photovoltaic facility in Novaci, North Macedonia - the biggest solar power plant in the Western Balkans. Spanning 57 hectares and using 101,000 panels, it will produce 85 GWh of electricity annually, serving up to 30,000 households and enabling a transition away from coal. Larger solar power plants are in ...
