

Outdoor server rack Martinique

What is an outdoor server rack?

An outdoor server rack or patch cabinet is a 19-inch cabinet that has four 19-inch mounting profiles. In these profiles, you directly attach 19-inch network equipment, such as a rack server, patch panel, switch or ups. The difference between a 'normal' server rack and an outdoor server rack is that the outdoor rack is weatherproof.

Are outdoor server racks waterproof?

These are manufactured from galvanized steel, aluminum or stainless steel material, making them the perfect layer of security against outdoor bad weather conditions. The 'waterproof outdoor server racks and cabinets safeguard your sensitive electronics in outdoor environments and ensure they function smoothly and reliably.

Are outdoor server cabinets waterproof?

The 'waterproof outdoor server racks and cabinets safeguard your sensitive electronics in outdoor environments and ensure they function smoothly and reliably. Our outdoor server cabinets are built to withstand everything, from rain and snow to dust and hot sun. They're even tough enough to resist vandalism.

How does the outdoor server rack cabinet work?

The cabinet design allows natural wind cooling through filtered vents on the front door and venting under the lip of rain hood. The outdoor server rack cabinet comes 2 or 4 fans with a dust-proof cover located at the top of the cabinet for greater airflow/cooling.

What types of server racks & cabinets are available?

Explore our premium selection of server racks and cabinets, including standard 42U racks to wall mounted network cabinets, compact portable options to robust industrial cabinets and kiosks, for all IT indoor and IP rated (NEMA) outdoor enclosure needs with same day shipping options.

What is outdoor floor standing server cabinet enclosure?

Outdoor floor standing server cabinet enclosures are designed to protect your sensitive network equipment from harsh environments, with waterproof and dustproof features to safeguard it from the elements, while still keeping the equipment secure outside. It has 12U, 16U, 18U, 22U, 27U, 32U and your custom sizes for your projects.

An outdoor server rack or patch cabinet is a 19-inch cabinet that has four 19-inch mounting profiles. In these profiles, you directly attach 19-inch network equipment, such as a rack server, patch panel, switch or ups.
