

Does Palestine have a potential for solar power?

The Palestinian territory has a high potential for solar power generation, as it receives around 3,000 hours of sunshine per year. As a result, the Palestinian Authority is looking to attract investments in the renewable energy sector. Inauguration of the solar power plant in a school in Beit Hanina, Jerusalem.

Can Palestinians achieve 10 percent of electricity production from renewable sources?

The Palestinian Energy Authority issued a renewable energy strategy in 2012 that aims to gradually achieve 10 percent of electricity production from renewable sources by the end of 2020. According to the strategy, this goal can be achieved if certain prerequisites are attained.

Can solar energy be used for water heating in Palestine?

Solar energy is already extensively utilized in domestic water heating but it is not widespread use in the commercial feasibility for producing electricity especially considering that Palestine has 3000 sunshine hours per year and an annual average of solar radiation of 5.4 kW h/m²/day.

How much PV power can be produced in Palestine?

In Palestine, the average values of specific PV power production from a reference system, described in Table 2, vary between 1700 and 1765 kWh/kWp for the selected three areas. A maximum value of energy that can be produced in Gaza and in the very southern region of the West Bank is higher than 1800 kWh/kWp.

How much electricity does Palestine use?

Electricity supply and demand According to the Palestinian Central Bureau of Statistics (PCBS), the total electrical energy consumption in Palestine in 2019 was reported to be 5,929.5 GWh. This quantity is almost entirely imported from outside sources, mainly from the Israel Electric Corporation (IEC), as shown in Table 1.

Can geothermal energy be used in Palestine?

El-Kilani RJ, Zaid AI. Geothermal energy in Palestine practical applications. In: Proceedings of the power generation system and renewable energy technologies (PGSRET), 2015, IEEE; 2015, p. 1-4. P.C.B. of Statistics, Household energy survey: (January 2011) main results, Tech rep, Palestinian National Authority (2011).

Westech Solar Energy GmbH With more than 10 years of experience, Westech-Solar Energy GmbH is a competent partner in the market for renewable energies. We would like to share these experiences with you and provide you with high-quality products. Our employees work from Germany and Austria to be at your side as a competent and... Read more
