

Photovoltaic panel construction team seeks boss

Will solar power boost UK jobs in 2025?

The International Energy Agency believes renewable energy will make up 95% of the total global power capacity by 2025, with solar representing a vital energy source, likely driving a significant rise in solar jobs in the UK. Until more recently, solar represented a fraction of electricity production and energy sector jobs in the UK.

Where can I find solar panel installer jobs?

Apply to Solar Panel Installer jobs now hiring on Indeed.com, the world's largest job site.

How does solar jobs work?

When a candidate registers with SolarJobs they are given access to a free candidate management system. This allows the candidate to upload and edit their CV, set up job alerts by email that immediately notifies them of suitable job opportunities, add jobs to a wish list and track all the applications that they have made to suitable job postings.
