

The Technique Solaire Group generates renewable and cost-effective energy by developing photovoltaic solar and biogas facilities in France and abroad. Founded in 2008, the company serves as a catalyst for energy and agricultural ...

Since greenhouses occupy agricultural land [29], the integration of production plants of solar energy on the greenhouse roof can be the most sustainable solution [10,30]. ... Adv. Mater. ...

Based on the recent progress made in the development of smart sensors and IoT devices for greenhouse, the merits of semitransparent PV modules and transparent greenhouse covering materials outweighed the risks ...

This research explores the social influence on consumers' purchase willingness or intention of solar photovoltaic panels in the online context and finds that source credibility ...

Photovoltaic (PV) technology, as an efficient solution for mitigating impacts of climate change, has been increasingly used across the world to replace fossil-fuel power to minimize greenhouse gas ...
