Achieving higher kW outputs through a dual pack configuration We rely on a dual pack configuration to achieve the kW outputs on the higher end of our containerized line. Simply put, dual packs are two parallel generators in one ISO container: Two 500 kW generators could be paralleled to achieve a 1000 kW output, or two 625 kW generators to ...

The Konecranes Hybrid Power Pack turns a diesel RTG into a diesel-electric hybrid RTG. Whenever possible, the crane is operated with electrical power drawn from the energy store. Like a hybrid car, it takes the energy generated during braking and converts it into electricity to recharge the energy store.

Don't forget to pack your best sunglasses, sunblock, and hat/cap to protect yourself and your kids from Singapore's intense and infamous sun. I always opt for Two Peas Organics's natural and organic sunscreen/sunblock with multi-spectrum protection for myself as well as hubby and a kid-friendly sunscreen by Thinkbaby for mini-me.

This system is modular, so expansion can be easily realized. The container is also equipped with a HIB-cooling system. The system is completely self-sufficient. In terms of connections, all you need is 1 cable for the 400V-50Hz power ...
