

Power secure inc Tajikistan

Who owns PowerSecure?

In 2016 PowerSecure joined the Southern Company as a wholly owned subsidiary. Over the last 20 years, PowerSecure has deployed over 1700 microgrid systems (*85% of the U.S. market share), and boasts **98.7% system reliability, exceeding industry standards.

What can PowerSecure do for You?

As a diverse power generation company, PowerSecure's distributed energy infrastructure solutions include distributed energy innovation, solar energy, fuel cells, energy storage, and microgrid solutions.

Is PowerSecure ready for a storm?

At PowerSecure, our PowerControl Monitoring team is actively prepared to assist with outages, while PowerSecure Service teams are making final checks to ensure mobile units are ready and available as the storm progresses. Stay safe and take all necessary precautions during this time!

The Government of Tajikistan aims to transform itself from a net energy importer to a net energy exporter, on the strength of its potential for hydropower and solar power production. According to the World Bank, Tajikistan's power production is 92 percent hydropower, six percent hydrocarbon, and two percent from other sources.

PowerSecure offers alternative financing structures including capital leases, operating leases, and long-term power purchase agreements to support executing your next microgrid or energy system. Read [Funding Microgrids: CAPEX versus OPEX](#) to learn the difference between capital expenditure (CAPEX) and operational expenditure (OPEX).
