

Powerbox Ltd Slovenia

Where is Powerbox based?

Founded in 1974, with headquarters in Sweden and operations in 15 countries across four continents, Powerbox serves customers all around the globe.

What is the PowerBox Pioneer?

The PowerBox Pioneer is a 14-channel power supply unit without voltage regulation, designed for HV servos. Designed without voltage regulators or the large heat-sink surfaces required for them, it offers ultra-compact dimensions.

What makes Powerbox unique?

Every aspect of the company's business is focused on that goal, from the design of advanced components that go into products, through to high levels of customer service. Powerbox is recognized for technical innovation that reduces energy consumption and its ability to manage full product lifecycles while minimizing environmental impact.
