How much money does Puerto Rico have to pay for solar?

Up to \$190 million is available to Puerto Rico's Housing Administration and a private company to pay for solar and battery installations in public housing common areas and subsidized, multifamily housing properties. Another \$175 million is available for certain healthcare and dialysis centers.

Why did Puerto Rico get a power outage?

The announcement comes as the U.S. territory continues to struggle with chronic power outages that have worsened since Hurricane Maria pummeled the island as a powerful Category 4 storm in 2017, razing the electric grid. The outages also are blamed on a lack of maintenance and investment in its electric grid for decades.

The U.S. Department of Energy (DOE) Loan Programs Office (LPO) has issued an Environmental Assessment (EA) and Finding of No Significant Impact (FONSI) to consider the environmental impacts associated with providing potential financial assistance (a federal loan guarantee) for the construction of a one proposed solar PV installation and four BESS in the municipalities ...
