

# Qatar neton power

Who is Neton power?

At NetOn Power we are part of Quantum Energy Partners, a large global investment firm with over \$18 billion invested in energy, through vehicles such as its renewable energy platform 547 Energy. NetOn Power is backed by 547 Energy, a global platform specialising in renewable energy and the green economy, powered by Quantum Energy Partners.

How does Neton power work?

For groups of companies located on the same industrial estate, NetOn Power offers industrial energy community solutions. In this case, customers share the energy produced by the same self-consumption facility, located either on their roofs or ground-mounted in their immediate vicinity.

Why should you choose Neton power?

Why choose NetOn Power? NetOn Power is a platform launched by investment firms Quantum Energy Partners and 547 Energy, together with a team of experts in the energy sector, whose goal is to contribute to the competitiveness and sustainability of industrial companies, under the highest quality standards.

Who is qatarenergy?

QatarEnergy is the client for this project, which will generate a total of 875 MW. The project has 417MW and 458MW solar plants, to be built in Mesaieed, about 40km south of the capital Doha, and in Ras Laffan, roughly 80km north of Doha respectively.

How much energy does Qatar use?

Qatar's energy consumption in 2016 was 34.00 billion kilowatt-hours (kWh), which is an average of 15,056 kWh per capita. Qatar's exploration of the oil market began around 1923, when its own pearl diving market took a hit with the entry of Japan's cultivated pearls into the market.

Does Qatar use natural gas?

Since 2007, natural gas production in Qatar has significantly increased and is the primary fuel chosen for energy consumption within Qatar. In 2014, Qatar ranked as the fourth highest natural gas producer worldwide.

Qatar's energy consumption in 2016 was 34.00 billion kilowatt-hours (kWh), which is an average of 15,056 kWh per capita.
