

# Rent per panel of JA Solar

How much power does a JA Solar panel produce?

Power output of most home solar panels in the UK is 250W to 400W. JA solar panels are either at the higher end of this range or exceed it. For example, JAM60S20/MR solar panels offer 21 per cent efficiency with a peak power output of 390W, at a lower price than similar solar panels from many other manufacturers.

What is a JA Solar JAM54S31-420/LR?

The JA Solar JAM54S31-420/LR is a 420W half-cell solar panel with a stylish all-black design. This solar module is part of the DeepBlue 3.0 Pro LR Series, which offers high efficiency, reliability and power output. Solar Panels are subject to a £150 ex VAT delivery charge up to 50 panels.

How much do JA Solar panels cost?

The cost of solar panels from JA Solar is quite competitive compared with other solar panel companies. Our research has found that a 585W panel, for instance, is priced at around £90. Sharp sells a similar model for around £40 more. However, JA Solar's product warranties only last 12 years - half that of many other manufacturers.

Which JA Solar panel is best?

JA Solar's JAM60S20 panel offers high efficiency of 21 per cent and a power output of 340W, for a lower price tag than many of its competitors. Meanwhile, the JAM72S30 LR solar panel stands out for larger homes, as it boasts an impressive power output of 585W, which is a greater output than most domestic panels.

How much does a solar panel cost?

A JA 585W solar panel, for instance, costs around £90 - £40 less than solar panels with similar output from other manufacturers. Here are some other examples. JA 365W solar panel - £60. Q Cells 350W solar panel - £120. REC 365W solar panel - £85. JA 400W solar panel - £60. JA 405W solar panel - £60.

How efficient are JA Solar panels?

However, when combined with N-type technology, JA's monocrystalline solar cells are at the top of the efficiency scale for mid-range solar panels. A solar panel efficiency rating of more than 20 per cent is considered very good.
