Where is Foul Rift solar project located?

RED BANK,N.J.,Oct. 9,2024 /PRNewswire/-- CEP Renewables,NJR Clean Energy Ventures and CS Energy announced that they have completed the 19 MW dc grid supply Foul Rift solar project located in White Township,Warren County,New Jersey.

What is an energy rift?

At an energy rift, a player may deposit various memories from harvesting the different kinds of wisps and springs, in exchange for divination experience. There is an energy rift present at every wisp colony. There is also a rift in the starting room of every dungeon in Daemonheim.

Why is the Foul Rift project important to New Jersey?

Not only has the Foul Rift project turned an environmentally hazardous site into a revenue generating asset,it has also contributed to New Jersey maintaining its ranking as the number one U.S. state for installed solar capacity per square mile. This project also further supports the state in achieving its goal of 100 percent clean energy by 2050.

How did CEP acquire the Foul Rift project?

Similar to CEP's award-winning Mount Olive and landfill solar projects,the Foul Rift project was also acquired through the redevelopment and tax lien foreclosure process,a method that was entirely unprecedented prior to the Mount Olive project.
