

Rwanda deon energy

How much solar energy does Rwanda have installed?

Rwanda has 12.08 MW of total on-grid installed solar energy. Households far away from the planned national grid coverage are encouraged to use Solar Photovoltaic (PVs) to reduce the cost of access to electricity.

Is Rwanda facing an energy crisis?

Several indicators point to an energy crisis in Rwanda including: accelerated deforestation, a biomass energy deficit and deterioration in electricity generation and distribution systems. The major part of the energy consumed in Rwanda today still comes from wood (80.4 per cent).

What services does Deon energy provide?

We provide automated services to regularly update you on the effectiveness and production of your installation. Deon Energy offers innovative renewable energy solutions including photovoltaic PV systems, energy storage, hybrid systems, net-metering, and retrofit-repowering projects.

What is Rwanda's Energy use?

The country is in the midst of a rapid expansion of its electrical grid and many new plants are proposed or under construction. Biomass is the most important energy source utilized through firewood and agricultural waste for cooking. In 2014, this represented 85% of Rwanda's energy use.

What is the current energy generation in Rwanda?

The current energy generation capacity in Rwanda (as of 2017) is at 210.9 MW. Grid-connected generation capacity has tripled since 2010. The power generation mix is currently diversified with hydro power accounting for 48%, thermal for 32%, solar PV for 5.7%, and methane-to-power for 14.3%. Rwanda has achieved an access rate of 40.5%.

How much electricity does Rwanda use?

The extent of grid electricity is limited and mainly concentrated near Kigali. Most of the country uses firewood as its main energy source. Rwanda is planning to expand from 276 MW of grid power in 2022 to 556 MW in 2024 and may import some additional electricity from neighboring countries.

Deon Energy Pvt. Ltd. is founded by Dharmesh Patel, who is also honouring the post of Managing Director at the company. With over 10 years of knowledgeable experience in the Renewable Energy Sector and business development, he has a proven track record in leading numerous successful projects, especially in the solar sector.
