

Rwanda solution power partner

How does Power Africa collaborate with Rwanda?

Power Africa collaborates with Rwanda's utility to build capacity in planning, project management, and network modeling to strengthen the network and to accelerate on-grid connections. These efforts will boost transmission and distribution capacity, enable regional trade, and improve the financial performance of the utility.

Can solar power power a healthcare facility in Rwanda?

Solar power can indeed be used to power healthcare facilities in Rwanda. Modular solar energy systems have been installed through a Power Africa grant to provide power and clean drinking water to six off-grid healthcare facilities in Rwanda, including Gasagara healthcare center.

Will Rwanda have 100% electricity access by 2024?

Rwanda is targeting 100% electricity access by 2024, with 52% of the population having access to on-grid electricity and 48% relying on off-grid solutions. The country is endowed with natural energy resources including hydro, solar, and methane gas in Lake Kivu in the west. Currently, it has 225 MW of installed generation capacity.

What is USAID doing in Rwanda?

Through USAID, Power Africa is working to strengthen the Rwanda Energy Group (REG) (the country's utility) and the Rwanda Utility Regulatory Agency (RURA) in Rwanda to ensure the sustainable development of the energy sector.

What natural energy resources does Rwanda have?

Rwanda is endowed with natural energy resources, including hydro, solar, and methane gas. According to the International Energy Agency (IEA), Rwanda currently has 218 MW of installed generation capacity and its national electrification rate is estimated at 30% (12% in rural areas, 72% in urban areas). Rwanda is rich in various energy resources.

How did DC hydropower develop a power plant in Rwanda?

DC HydroPower identified and developed the project through the feasibility stage and signed a power purchase agreement (PPA) with the Rwanda Energy Group. The U.S. Agency for International Development's U.S. Trade and Development Agency (USTDA) conducted a feasibility study for the project.
