

Why should you choose Alfen energy storage systems?

Alfen's TheBattery Elements energy storage systems are tailor-made for different markets and applications based on the same design principles to guarantee performance, flexibility, modularity and longevity.

What are Alfen's energy storage solutions?

Alfen's energy storage solutions are underpinned by two key products: TheBattery Elements and TheBattery Mobile. These products are tailor-made for different markets and applications but based on the same design principles to guarantee optimal performance, flexibility, modularity and longevity.

Where can Alfen's mobile storage system be implemented?

Alfen's mobile storage system can be implemented absolutely everywhere. See how TheBattery delivers green energy in the Port of Rotterdam. TheBattery Connect is Alfen Connect's module used as an energy management system for Alfen's energy storage solution, TheBattery.

Does Alfen have a mobile energy storage system?

Alfen supplied Vlot Logistics, a specialist in zero-emission construction logistics, with a mobile energy storage system combined with a 300kW fast charger. Shell and Alfen have launched a pilot to trial an on-site battery-powered system to support ultra-fast electric vehicle charging at Shell's Zaltbommel forecourt in the Netherlands.

Will Alfen's 'battery elements' solve the energy transition's biggest challenges?

Located in Vlissingen, the storage system featuring Alfen's TheBattery Elements will solve two of the energy transition's biggest challenges: an unbalanced grid and the unpredictability of renewable energy sources.

Does Alfen offer a smart charging station?

Alfen offers a comprehensive assortment of electric charging stations for home, work and the public domain. The smart charging stations are available in a wide range of charging capacities and functionalities.

Alfen, a Netherlands-based provider of electric vehicle (EV) charging, smart grid and energy storage solutions has reported a 526% increase in half-year revenues for its storage segment. The Euronext Amsterdam ...

Image: Alfen. Netherlands-based BESS integrator Alfen is providing a 20MWh unit for a wind farm in its home market, in the region of Ooltgensplaat. Alfen has signed an agreement with the Windpark de Plaet plant to install the battery energy storage system (BESS), which the announcement implied will have a power rating of 10MW, i.e. a 2-hour system.

IPP and energy trader Monsson has kicked off the environmental permit process for a 2GWh BESS project in Romania, which an executive said will use its own patented energy storage solution. EU Roundup: Alfen,

Sermatec projects in Sweden and Bulgaria, "flexibility as a service" startup raises EUR77 million for German expansion

Energy storage and smart grid solutions firm Alfen is deploying a 30MW/68MWh battery storage project in the Netherlands for commissioning later this year, the largest under construction in the country.

STOREtrack is Europe's leading database of storage projects, helping you keep your finger on the pulse of the European energy storage markets. The database tracks the deployment of storage across 28 countries, detailing the companies involved in each project and their role, as well as project technologies, milestones, segments and technical ...

The US Department of Energy's "Energy Storage Project Database", lists just five operational energy storage projects online in the Czech Republic so far. Four of these are pumped hydro plants and the other is a vanadium redox flow battery system installed in 2015, installed at a science and technology park in South Bohemia, with just 30kW ...

Of related interest has been the deployment of stationary energy storage battery units as "buffers" to the use of ultrafast-charger units for electric vehicles. A few weeks ago, Dutch ESS provider Alfen teamed up with fuel ...

Also using the Recovery and Resilience facility, the Ministry of Energy of Romania has awarded grants to a handful of energy storage projects. Minister of Energy Sebastian Burduja yesterday (4 November) signed off some EUR30 million of support for five battery energy storage system (BESS) projects totalling 791.48MWh. They are:

One of Sweden's DNOs Ellevio Group is investing in four new battery storage projects totalling 70MW, supplied by Alfen, the latest in a series of large-scale projects. ... Energy-Storage.news" publisher Solar Media will host the eighth annual Energy Storage Summit EU in London, 22-23 February 2023. This year it is moving to a larger venue ...

Recently-formed energy storage developer Ingrid Capacity is building a 70MW battery storage facility in Sweden for a delivery date as early as H1 2024, the largest planned in the Nordic country. ... More, larger systems are being planned including a 10MW/11.9MWh system from Alfen but Ingrid Capacity's is the largest publicly-announced one ...

Image: Lion Storage via Linkedin. Battery energy storage system (BESS) project developer Lion Storage is planning a 364MW/1,457MWh project in the Netherlands for operation in two years' time. Lion Storage announced the Mufasa BESS project last week (16 February), which it said would be the largest BESS in the country once operational in 2026.

Power equipment supplier and system integrator Alfen is putting energy storage and EV chargers on a football

stadium in its Dutch homeland, while the company is reportedly considering a ...

Power equipment supplier and system integrator Alfen is putting energy storage and EV chargers on a football stadium in its Dutch homeland, while the company is reportedly considering a stock market flotation.

A distributed smart grid that can "heal" itself in the event of system components failing has energy storage and energy management software at its core, grid-scale system integrator Alfen has said. French island tenders push down solar-plus-storage prices by 40%.

The battery storage system, was supplied by Dutch Stock Exchange-listed Alfen and installed by sustainable energy company Eneco Belgium. It will store and integrate power from the turbines to be used onsite, ...

Alfen delivered its 1 MW battery energy storage system "TheBattery" to Engie's power generation plant in Drogenbos (Brussels). This is the first battery based storage system in Belgium to provide grid stability since the grid operator opened its network for battery systems in May 2017.
