thousands of installations ...

HIMOINSA's 458kVA generator sets will supply power to two Rubber Tyred Transtainer® (RTG) cranes of PACECO España, a company that designs, manufactures and develops container-handling equipment. The cranes have been designed with state-of-the-art technology to optimise container handling in the port's terminals, to ensure operational ...

HIMOINSA guaranteed continuous power supply with a synchronised start-up system. Up to 2.4MW of power can be supplied, double the current needs of this new part of the hospital. By installing load demand-based management or wattmetric management, the control units detect existing demand.

Energy solutions for the telecommunications sector looking for reliable equipment, with great autonomy, low consumption levels and long service intervals. Power Solutions Generator sets for critical power supply, data centres, IPP, ...

The range of diesel generators for the rental market is now bolstered by the HIMOINSA models HRGP 25 T5 LPG, HRGP 40 T5 LPG and HRGP 60 T5 LPG. The new gas-powered generators with an integrated LPG tank that offer 25, 40 and 60 KVA of continuous power. This new rental canopy version incorporates ...

Himoinsa (Hispano Italiana de Motores Industriales SA) was founded in 1982 and its headquarters is now in San Javier covering 65,000 m². We first bought Prima Power sheet metal forming machinery in the 1980s in Spain. At that time, the laser and plasma machines did not even exist, and when they came out, they were very expensive.
