Viking Energy har vært banebrytende innenfor dette arbeidet, og vi er stolte over at skipet vil ta industrien videre med ammoniakk, sier Talmo. ET STERKT PARTNERSKAP Viking Energy, som nylig ble tildelt ytterligere fem år med operasjon for Equinor til 2030, er forventet å operere med ammoniakk fra første halvdel av 2026.

One year later, Viking launched its second ocean ship, Viking Sea, which was joined by sister ship Viking Sky in 2017, Viking Orion in 2018 and Viking Jupiter in 2019. In May 2021, Viking welcomed its newest sister ship, Viking Venus, to the fleet. Viking Saturn will join the company's award-winning fleet in early 2023.

Saint Martin viking energy multicat

The Viking Energy features dual fuel engines, with a consequence that it can run on both LNG and ordinary marine diesel oil in any proportion. Using LNG results in a 90% reduction in the outlet of NOx (approx. 200t a year) as well as a 30% reduction in CO2. Tests have shown that the vessel has a fuel economy rate of 30% better than that of diesel.
