Solar is an investment unlike a car. First of all solar, connected to net metering can reduce the electricity bills significantly which is how you recover the cost of solar (and you can recover that initial cost within 2-4 years depending on the electricity price increase). Also electricity prices will keep going up especially in Pak.

The average cost to install solar panels is around \$26,600, and most homeowners pay between \$4,500 and \$53,000. Keep in mind that these prices don't consider the federal investment tax credit (ITC), which can effectively reduce those costs by up to 30%.
