What is Tesla's Megapack?

The Megapack has become the go-to, posterchild product for large-scale energy storage around the globe. It's by far Tesla's fastest-growing product and enabled the company to deploy a record of 9.4 GWh of energy storage last quarter - more than twice the last record.

Where are the Seychelles located?

The Seychelles (pronounced say-shells) is an archipelago of 115 islands located in the Indian Ocean. It's around 1500km off the east coast of Africa, with the closest surrounding countries being Madagascar, Mauritius, and the Maldives. It's the least populated country in Africa, with just under 100,000 citizens living in the Seychelles.

How to choose a Seychelles holiday package?

Select an all-inclusive Seychelles resort so that you can stash your wallet and enjoy a hassle-free holiday to the Seychelles. We recommend choosing a 7-night Seychelles Holiday package in order for you to make the most of the islands and your chosen resort.

What is Tesla's Megapack power storage system?

Tesla's Megapack power storage systems are being deployed around much of the world, effectively offering massive batteries for storing energy from renewable sources such as solar or wind energy.

What is the largest resort in the Seychelles?

Constance Ephelia is the largest resort in the Seychelles. It has 313 rooms and villas and offers a full range of on-site facilities and attractions. There are several swimming pools, four tennis courts, a squash court, and five shops, and the spa has eighteen treatment rooms -- and dining options are varied and tempting.

Will Tesla megapacks expand the Collie battery?

Tesla Megapacks will help expand the Collie Battery into a 560 MW/2,240 kWh system - the biggest in Australia. Neoen recently won the contract to triple the size of the Collie Battery. The French renewable energy and storage developer is teaming up with Tesla and UGL to expand the Collie Battery.
