

I am a highly motivated and skilled professional with strong social and deductive skills. Throughout my career, I have led multiple teams, demonstrating high potential for delivery. I have successfully completed over 30 projects, with special emphasis on:
- Changes to the card processing center
- Implementation of agile development methods
- ...

IBEKO Power AB, Box 1346, 181 25 Lidingö, Sweden. Products; Catalogues; Press Release; White Papers; Videos; Profile. Micro-Ohmmeter RMO-A Series. ... RMO-A micro-ohmmeters have very high output power capabilities. They can generate 600 A test current continuously for up to 20 s. You can test with current up to 100 A without a rest time.

Superior functionality multimeter - all in one: complex measurement installations meter and 3-phase power quality recorder. Advanced power quality diagnostics Measurement of all earthing and electric shock-related parameters with a single device Measurement of photovoltaic installations according to EN 62446 standard 7 "" touch screen ...

voltage is recommended. When you test power transformers, you can select any test voltage. You do not have to test power transformers with 100 V to have better accuracy of results. TRT devices have the same accuracy using 100 /80 V or 40 V or 10/8 V AC. The best accuracy is provided by TRT63 series . 2010 IBEKO Power AB, Sweden.

DV Power test sets via Ibeko Power, Ab Portable, reliable test equipment for Circuit Breakers, Transformers, LTC's and Battery banks. DV Power provides premium electrical test equipment to the worldwide power utility market.
