

What type of energy is used in Slovakia?

The Slovak Republic predominantly uses natural gas and electricity across most sectors, with the largest demand in industry. In the transport sector, oil is the most commonly used energy source. The Slovak Republic also has an extensive district heating (DH) system, fuelled mainly with natural gas and, increasingly, biofuels.

Is Slovakia a net exporter of electricity?

From 2024, following the completion of two new nuclear reactors, Slovakia will return to being a net exporter of electricity. Slovnaft is the largest oil refinery in Slovakia. In 2022 Slovakia sought to reduce its reliance on oil from Russia. Slovenský plynárenský priemysel (Slovak Gas Industry) is the main natural gas supplier in Slovakia.

How many regional electricity distribution companies are there in Slovakia?

2.3.1 There are three regional electricity distribution companies in Slovakia (ZSE Distribúcia a.s., SSE - Distribúcia a.s. and Východoslovenská distribu?ná a.s.), each of which has a natural monopoly in its particular region.

How much does electricity cost in Slovakia?

Slovakia, September 2022: The price of electricity is 0.205 U.S. Dollar per kWh for households and 0.364 U.S. Dollar for businesses which includes all components of the electricity bill such as the cost of power, distribution and taxes.
