

Smile s6 hv Wallis and Futuna

Does alphaess smile-s6-hv have battery storage?

AlphaESS SMILE-S6-HV residential storage batteries is available for DC-coupling, AC-coupling and hybrid-coupling connection and working with multiple battery options. This HV trooper is able to operate in full off-grid scenario with full 6kVA backup. Click to learn more about AlphaESS SMILE-S6-HV 6kW Battery Storage now!

What is the operating temperature range of smile-s6-hv?

Operating temperature range is excluded. SMILE-S6-HV $-10^{\circ}\text{C} \sim 55^{\circ}\text{C}$ $32^{\circ}\text{A} \sim 55^{\circ}\text{C}$. **When the ambient temperature is too low or too high, the performance of battery may be limited. **Under specific test conditions Operating Temperature Range Capacity Range $5 \sim 30.0 \text{ kWh (95\% DoD)}$ $8.2 \sim 49.2 \text{ kWh (95\% DoD)}$

Does smile S6 HV go on-grid?

A single phase, high voltage residential battery system with the ability to go on-grid and off-grid. The Smile S6 HV goes the extra mile with its ability to be on-grid and off-grid. If you experience a power cut or disconnect from the grid, the automated islanding function will kick-in and use your stored electricity to power your home.

Is Smile S6 a high-voltage battery?

In today's world, much of our lives are assisted using the power of technology, which is why the Smile S6 was designed to be a high-voltage product. It is 8 percent more efficient than our Smile5 residential battery due to its ability to have an output rate of 6kW, and simultaneously store an additional 3kW.

How many batteries can a smile S6 HV battery system use?

This means when the solar panels are producing maximum energy, it is stored for later use as opposed to going to waste. Our Smile S6 HV battery systems can pair with up to six batteries, with the large 8.2kWh battery expanding your storage capacity to 49.2kWh.
