

# Solar backup system for home DR Congo

Will the DRC benefit from the Inga?

Currently the DRC only has 2.5 gW installed and no early benefit from the Inga. However solar and wind is available now. Existing HEP could fill in the 'gaps' when solar is not available. However offgrid power is essential in the rural areas and small towns across this vast country.

How much power does DRC need?

Even with new solar and wind DRC could only satisfy between 15 and 55% of total demand. This leaves between 45% and 85% needing offgrid power or 16 gW of installed solar capacity ! Same applies to clean water as only 23% have access.

How much solar power is available in Kinshasa?

In the area around Kinshasa there is a further 6 gW of solar available at 7 us cents per kW hr. There is also sufficient for the rural areas around Kinshasa, Mbandaka on the Congo river and the main port of Matadi. It can even be exported over the river to Brazzaville.

Will existing HEP fill in the 'gaps' when solar is not available?

Existing HEP could fill in the 'gaps' when solar is not available. However offgrid power is essential in the rural areas and small towns across this vast country. Even with new solar and wind DRC could only satisfy between 15 and 55% of total demand.

DRC - Solar for the Congo. The Democratic Republic of the Congo (DRC) is the heart of Africa. Its rainforest is one of the two carbon sinkholes of the world. It's the 2<sup>nd</sup> largest rainforest remaining in the world and it sits astride the Congo ...

To maximize your solar PV system's energy output in Goma, DR Congo (Lat/Long -1.6829, 29.2211) throughout the year, you should tilt your panels at an angle of 23° North for fixed panel installations. As the Earth revolves around the Sun each year, the maximum angle of elevation of the Sun varies by +/- 23.45 degrees from its equinox elevation ...

When you eventually want to use the power, the inverter converts the DC electricity into AC electricity to energize the appliances and electronics of your home or business. The Benefits of Solar Backup Systems. Below are the top benefits of using a solar battery backup system with your solar energy system. Reduces Energy Costs

Equatorial and SustainSolar-- a South African off-grid PV system integrator concentrating on rural electrification in Africa-- will install containerized, off-grid solar-battery power systems on the continent's second-biggest inland ...
