

Is solar power coming to Trinidad and Tobago?

In June 2020, Trinidad and Tobago's government announced that two grid-scale solar power projects are to be constructed in Trinidad, which is expected to deliver electricity at prices on par with the current average cost of electricity generated from natural gas. 1.

What is the energy policy of Trinidad and Tobago?

The Government of Trinidad and Tobago is currently developing a national energy policy green paper that recognises renewable energy's (RE) combined with energy efficiency (EE) and utilisation of compressed natural gas in the transportation sector, inter-alia, as important strategies for the promotion of sustainable development of the nation.

Should Trinidad & Tobago invest in wind and solar energy?

Tapping into Trinidad & Tobago's vast wind and solar resources for domestic electricity consumption would allow it to export more natural gas and use the extra revenue to finance its broader, long-term energy transition plans. Why do financial institutions have a role to play in energy transition?

What is the electricity generation mix in Trinidad and Tobago?

As of 2020, the electricity generation mix in Trinidad and Tobago is dominated by fossil fuels such as natural gas, coal, and diesel. However, increasing demand for clean and stable energy is expected to be the primary driver for the solar power generation market in the country.

Does Trinidad & Tobago have wind energy?

Wind energy is still in its infancy in Trinidad & Tobago. Despite the fact that many companies are now active in the renewable energy sector, many of these firms are not yet focused on wind, and for those that are, their wind-related activities are often marginal.

Are there green energy sources in Trinidad & Tobago?

As there currently are not many green energy sources available in Trinidad & Tobago, local businesses must work towards developing their own and place additional emphasis on energy efficiency and conservation.

Trinidad & Tobago's fiscal incentives for energy efficiency and renewable energy Solar energy incentives. import duty reduced to 0% on regional imports of solar water heaters (SWHs) 0% VAT rating on SWHs ; 25% tax allowance on the value of SWHs up to a maximum of \$10,000; 150% wear and tear allowance on the cost of SWHs
