

Solar factory in Isle of Man

Will the Isle of Man have a solar energy farm?

Plans have been submitted for the Isle of Man's first solar energy farm. The proposed 84-acre development in the south of the island would generate enough electricity to power nearly 8,000 homes per year, developers said.

Will 84 acre solar farm be built in Malew?

The proposed 84-acre development in the south of the island would generate enough electricity to power nearly 8,000 homes per year, developers said. Peel Cubico Renewables said the Billown Solar Farm, to be built on agricultural land in Malew near Castletown, could be in operation next year if approved.

Will a solar farm help the island's long-term energy needs?

The firm is now asking for feedback on the proposals before formal plans are submitted. Stephen Snowden, from the renewable energy company, said the solar farm would help the island "to take control over its long-term energy needs".

What is Billown solar farm?

The Billown Solar Farm, which would be the first of its kind on the island, would be situated on 84 acres of agricultural land in Malew. Peel Cubico Renewables said the project would be operational by 2024 and could power up to 7,700 homes. The firm is now asking for feedback on the proposals before formal plans are submitted.
