

Will a 5 MW solar installation make Maldives a popular destination?

Now, one of the first sights for any of the 1.7 million tourists visiting the Maldives will be that of the 5 MW solar installation on the highway linking the airport island to Male and its satellite town of Hulhumale.

How much does a solar project cost in Maldives?

In 2022, 63 investors expressed interest in the third 11 MW solar project in the remote islands of Maldives, and a record low price of 9.8 US cents was received. This is one of the lowest tariffs for any small island developing state (SIDS).

Should investors invest in sustainable solar projects in the Maldives?

In 2014, the first 1.5 MW solar project under ASPIRE only had four investors' bids, and resulted in a high power purchase price (PPA) of 21 US cents per unit of electricity, indicating a lack of interest from investors in investing in sustainable projects in the Maldives.

What are the challenges facing solar projects in Maldives?

Challenges facing such projects include integrating solar with existing power sources on the grid, off-taker risk, weak procurement, and planning capacity. The objective of the ASPIRE project is to increase photovoltaic (PV) generation in Maldives through private-sector investment. Approved in 2020, the ARISE Project scaled up this process.

When will the Aspire project start in the Maldives?

The inauguration of the 5 MW solar project on December 7, 2022 under the ASPIRE project has been a game changer in the energy transition journey of the Maldives.

How will Aspire and Rise help the Maldives' energy transition?

World Bank-financed projects ASPIRE and ARISE support the Maldives' energy transition by installing more than 53.5 megawatts of solar capacity and 50-megawatt hours of battery storage. This will reduce Maldives' annual import bill by about \$30 million, with a project lifetime saving of \$756 million over 25 years.

The advantage of this composite material is that it has better hardness properties and longer lifespan than concrete. While high performance concrete (HPC) has a lifespan of max. 50 years, the composite material of PLATIO Solar Pavers keeps their quality for min. 100 years. Its tensile and compressive strength are much higher, and it absorbs much less water than the concrete ...

The Project involves the development of 36 MW solar power project and 50 MWh of battery energy storage solutions across various selected islands in the Maldives. The Project also involves grid modernization for the integration of variable renewable energy with the grid, which will be financed under the proposed AIIB loan.

In 2022, the Maldives was crowned the "World's Leading Destination", for the third consecutive year, at the World Travel Awards. With a population of around 550,000, the Maldives comprises 185 islands. Famous for its natural beauty, coral and fish life, the archipelago attracts almost 1.7 million tourists every year.
