

Does Kosovo have solar power?

Kosovo has the potential of capturing solar energy directly and converting it to electricity. The region of highest solar potential based on global horizontal irradiation is the southeastern part of Kosovo, centred around the city of Gjakova. Solar power is already used on the roofs of some buildings.

Will Kosovo use solar energy for district heating?

In late December 2022, Kosovo became the first country in the Western Balkans Economy to use solar energy for district heating. Kosovo's Minister of Finance, Labour and Transfers, Hekuran Murati, said the project would ensure access to the central heating system for about 38,000 citizens.

How can Kosovo improve its energy sector?

The Group's commitment to helping Kosovo improve its energy sector is broad: projects are designed to improve energy efficiency, ease the policy and regulatory environment for renewable energy and energy efficiency, address the environmental legacy of the old power plants, upgrade power generation to meet demand, and improve water supply.

Does the UK have a role in Kosovo?

The UK has been a key contributor to the UN-mandated NATO force, known as KFOR, since it first entered Kosovo in 1999 as a peacekeeping force to bring peace and stability following the conflict of the 1990s.

Who is Unisolar?

Based on previous personal experiences in energy systems and having it all the necessary European qualifications for photovoltaic systems, the two co-founders established company Unisolar L.L.C., with the aim of reaching the heights of a successful business in the field of renewable energy in Kosovo and wider.

How Unisolar is developing our country?

Here you can see how we are developing our country, with the tireless work of our team ... Unisolar LLC, was founded in January 2021, by electrical energy engineers and the renewed one: Mr. Bujar Guci in Kosovo. Unisolar LLC was founded seeing the need for a serious company, which would be closer to the customers in the field of renewable energy.

In partnership with key players across the value-chain, Solar Energy UK is working to five-fold increase the UK solar capacity to 70GW by 2035. Read our 2023 Impact Report > Solar Rooftops. Solar technologies adorn one in every ...

11.12.2023, Prishtinë; Kryeshefi Ekzekutiv i NP "Termokos" SH.A., z. Fisnik Osmani me z. Hekuran Murati, ministër i Ministrisë së Financave, Punëve dhe Transfereve të Republikës së Kosovës; ...

Through solar heating over a territory of 69,000 square meters, where the solar collectors will be located, a seasonal reservoir of thermal energy storage, about 410,000 cubic meters of water, will also be built," he said.

...

It consists of units Terstenik and Sverke, with an AC capacity of 96 MW each. Ibex Energy's Chairman Christopher James and Jaha Solar's Chairman Fadil Hoxha represented the company at the signing ceremony.
