A solar panel that offers a power output of close to 100 W might take nine hours (or more) to charge even just midsized solar generator batteries. That can be a huge bottleneck, especially if you are depending on this power source in an emergency situation.

Our favorite solar generator for emergency backup power is the EcoFlow Delta Pro. It combines a fast solar charge time with a generous 3.6 kWh capacity, can directly power your home's electrical panel, and supports additional batteries for a total capacity of 25 kWh. Better yet, it's not even the heaviest or most expensive option on our list.
