

Solar store near me New Zealand

Do solar panels need sunlight in New Zealand?

New Zealand has abundant sunshine and generates between 1,700 and 2,100 sunshine hours annually. Some areas, like Nelson and Gisborne, receive as much as 2,400. Solar Panels don't require sunshine; they require daylight, so Solar Panels work year-round, even in the lower South Island. How many Panels do I need?

Is there free solar energy available?

There is free solar energy available to us all the time. You just need a quality PV (photo voltaic) solar panel system that is professionally installed to capture it. We are a national company with solar power teams in all main areas across NZ.

Do I need a meter to import solar?

An appropriate import-export meter is required. Your monthly Account Review (our version of a power bill) will also show the dollar value of any solar we have bought back. Keen to learn more about solar? The sun is a massive renewable energy source, that's unlikely to run out - so it's no surprise that solar power systems are growing in popularity.

Do I need a meter to buy back solar?

Ts&Cs and eligibility criteria apply. Our buy-back rate is subject to change. An appropriate import-export meter is required. Your monthly Account Review (our version of a power bill) will also show the dollar value of any solar we have bought back.
