

# Solomon Islands sunwoda battery

Is sunwoda a good battery company?

Today, HEV batteries are the backbone of Sunwoda's power battery business, with production operating at nearly full capacity, according to Wang. This low-key battery company has managed to attract both domestic and international automakers.

How long did it take sunwoda to develop a battery?

Sunwoda's first battery took 3-4 years to move from development to mass production, finally hitting the market in 2019. Today, HEV batteries are the backbone of Sunwoda's power battery business, with production operating at nearly full capacity, according to Wang.

Is sunwoda a low-profile battery supplier?

This rapid growth has also spotlighted its supply chain partners, with one low-profile battery supplier now stepping into the limelight. Industry sources reveal that Sunwoda, a key supplier for Li Auto's L7 and L8 models, is quietly weaving itself into the supply chains of several other automakers.

Why has sunwoda risen in the power battery market?

Sunwoda's cautious rise in the power battery market reflects the high stakes and rewards of competing with industry giants. With monthly sales exceeding 50,000 units, Li Auto has firmly secured its position as the leader among China's new energy vehicle startups.

Who is sunwoda energy?

Sunwoda Energy aims to become a world-class energy service provider, contributing to the development of clean, green and efficient energy and the construction of global energy internet. Founded in 1997, we are a professional energy storage solution provider with solid experience of ESS engineering and manufacturing.

How much money did sunwoda power make in 2022?

In 2022, Sunwoda Power, its power battery subsidiary, secured about RMB 8 billion (USD 1.1 billion) through two rounds of funding. By then, major automakers like Li Auto, Nio, Xpeng, SAIC Motor, GAC Group, and Dongfeng Motor had already joined its roster of clients. Still, in the power battery market, technology alone doesn't always stand out.

Executives from Sunwoda, one of the world's largest lithium-ion battery OEMs, share the latest updates around the company's grid-scale, residential, and commercial and industrial (C&I) energy storage system ...

Sunwoda & Li Auto Reach the Milestone of 100,000 Battery Packs Produced. Jul 12, 2024. On July 10th, SEVB, a subsidiary of Sunwoda, and LiAuto celebrated the milestone of producing their 100,000th battery pack at SEVB's Nanjing facility. This achievement not only marks a new level of production and market readiness for both companies in the ...
