Who makes solar power in Mexico?

SOLUZ develops and sells renewable electricity to private entities and the state-owned utility through long-term power purchase agreements. SOLUZ is currently developing multiple solar power plants in different states of Mexico with a total production capacity of over 1,500 MW.

Mexico power outlet. Mexico is associated with 2 types of plugs, Type A and Type B. (Type A) has two vertically parallel, rectangular pins; (Type B) has the same flat pins with an additional round grounding pin. North American countries (U.S., Canada, Caribbean, Mexico, Cuba, and most countries in South America), all use the same U.S.-style plugs.
