

What is powerup energy technologies?

PowerUP Energy Technologies mission is to improve sustainability and reliability of the energy systems. With a vision for a cleaner tomorrow,PowerUP develops and manufactures high-quality,sustainable energy generation products. Boasting 20 years of experience in fuel cell technology,we stand as an innovator in the fuel cell technology market.

Who is powerup fuel cells?

PowerUP Fuel Cells OÜ is a producer of the best-in-class hydrogen fuel cell based electric generators and proton exchange membrane fuel cells. The generators have many use cases in different industries. Our development roadmap envisages a full product family of fuel cell based electric generators that extend from 200 W up to 15 kW. PowerUP's goal

Where is powerup fuel cells OÜ located?

PowerUp Fuel Cells OÜ is located in Tallinn,Harjumaa,Estonia. How much funding has PowerUp Fuel Cells OÜ raised to date? PowerUp Fuel Cells OÜ has raised EUR650K. When was the last funding round for PowerUp Fuel Cells OÜ? PowerUp Fuel Cells OÜ closed its last funding round on Apr 1,2020 from a Seed round.

Can I share my personal information with PowerUP energy technologies?

Never share sensitive information(credit card numbers,social security numbers,passwords) through this form. This site is protected by reCAPTCHA and the Google Privacy Policy and Terms of Service apply. PowerUP Energy Technologies provides hydrogen fuel cells generators,a sustainable innovative source of energy.

For companies undertaking the transfer of a new space technology to a terrestrial market, a key resource is the know-how of ESA itself ... Energy permeates every aspect of our lives. Space agencies, governments... Environment - Wildlife and Natural Resources ... PowerUp Fuel Cells OÜ.. SHARE. DESCRIPTION

Lower-carbon solutions, such as renewable energy supported by gas power, can contribute to a more decarbonized energy future while providing reliable power. GE Vernova has a solution to support South Africa's anticipated growth in ...

Our novel solution allows you to connect the fuel cell unit in combination with an external battery with solar panels and wind turbines to produce and store excessive energy for future usage. The UP200 integrates fuel cells with pioneering battery technologies to make the generator smart.

Over 640 million Africans have no access to energy, corresponding to an electricity access rate for African countries at just over 40 percent, the lowest in the world. Per capita consumption of energy in sub-Saharan

Africa (excluding ...

About PowerUP Energy Technologies PowerUP Energy Technologies is an Estonia based cleantech start-up that produces best-in-class hydrogen fuel cell based electric generators and proton exchange membrane fuel cells. PowerUP's technology is based on their co-founders' 15 years of scientific research in the field of fuel cells and energy ...

PowerUP Energy Technologies | 5,287 followers on LinkedIn. Innovative hydrogen fuel cell based back-up generators | PowerUp provides clean and portable energy by delivering a hydrogen fuel cell backup generator solution, which can be used for various technologies - yachts, boats, recreational vehicles and many more.

PowerUP Energy Technologies has 5 employees at their 1 location and EUR118.8 k in annual revenue in FY 2021. See insights on PowerUP Energy Technologies including office locations, competitors, revenue, financials, executives, subsidiaries and more at Craft.

The aim of this project is to develop new and innovative bipolar plates (BPP) and membrane electrode assembly (MEA) for PowerUP's air cooled fuel cell stack. Project is in a partnership with a France company HYCCO who will develop ...

Primary energy trade 2016 2021 Imports (TJ) 1 330 833 1 224 357 Exports (TJ) 2 041 630 1 650 753 Net trade (TJ) 710 797 426 396 Imports (% of supply) 23 22 Exports (% of production) 31 28 Energy self-sufficiency (%) 115 107 South Africa COUNTRY INDICATORS AND SDGS TOTAL ENERGY SUPPLY (TES) Total energy supply in 2021 Renewable energy supply in ...

The 1kW closed cathode hydrogen fuel cell technology stack will be used on Lunar cargo ships and potentially even rovers, becoming an additional energy source along with solar panels and batteries. This innovative technology will provide power during extended periods of darkness when solar panels cannot charge the batteries.

The purpose of the project is to develop and assemble in co-operation with Beyonder AS and Nordic Batteries AS a 10,000 W proton exchange membrane (PEM) fuel cell based portable generator, UP10K Pro, which will provide clean energy to a number of industries that require uninterrupted power supply, but is mainly targeted to the construction and mining industry.

This has allowed photovoltaic solar cells to be widely adopted. 58 The theoretical potential for photovoltaic-generated energy in South Africa is enormous because the country receives about 220 W/m² of solar radiation per day and sunshine all ... Durban University of Technology, Durban 4000, South Africa. View all articles by this author. ...

PowerUP Energy Technologies is an Estonian cleantech start-up that produces best-in-class hydrogen fuel

cell-based electric generators and proton exchange membrane fuel cells. PowerUP's technology is based on their co-founders' 15 years of scientific research in the field of fuel cells and energy technologies.

PowerUP Energy Technologies" UP3K hydrogen-powered generator represents a significant step towards resilient and sustainable power generation. May 10, 2024. PowerUP Energy Technologies Introduces a First Ever Fuel Cell & Li-ion Super Battery Hybrid Solution. Dec ...

PowerUP Fuel Cells OÜ toodab vesinikul töötavaid elektrigeneraatoreid ja prootonvahetusmembraaniga kütuseelemente. Ettevõte pakub kaasaskantavaid ja keskkonnasõbralikke energialahendusi erinevatele turusegmentidele, millest põhilisteks on telekommunikatsioon, ehitus, tervishoid, valitsusvälised organisatsioonid, julgeolek, jahid, ...

Where is PowerUp Energy Technologies headquartered? PowerUp Energy Technologies is headquartered in Tallinn, Estonia. What is the size of PowerUp Energy Technologies? PowerUp Energy Technologies has 46 total employees. What industry is PowerUp Energy Technologies in? PowerUp Energy Technologies's primary industry is Electrical ...
