Is Elon a good choice for off-grid water heating?

Off-grid water heating with the Elon solution: "Installing an Elon was the best decision ever. Linked to three solar panels and with good planning my geyser is not consuming any Eskom power. We are completely off the grid, Winter and Summer. We are so satisfied that we just decided to install another Elon in my new house."

Is elon100 a good product?

I live in Durbanville, Cape Town and have used the Elon100 since Feb 2021. It is a wonderful product and even though we have overcast winters and shorter days, I still save 50% of the electricity during the year, compared to before the installation of the Elon100. It is a wonderful product and it is maintenance free. I highly recommend it.
