Stb giga factory inc Dominican Republic

The Gotianun Group recently delivered a turnkey factory to StB GIGA, a company building a world-class lithium iron phosphate (LFP) battery production facility in New Clark City. This handover of the Filinvest Innovation ...

President Marcos emphasized that the StB GIGA Factory, the first Lithium Iron Phosphate (LFP) battery manufacturing plant in the Philippines, positions the country as a key player in the global clean energy movement. He projected the factory's full operational capacity by 2030, which will generate an estimated 5 billion pesos in annual ...

Our Chairman, Trevor St Baker AO, highlighted that the inauguration of the StB Giga Factory marks a pivotal moment in our commitment to ramp up production to 2 Gigawatt-Hours of batteries by 2030. This initiative not only fosters growth in bilateral trade and investment between Australia and the Philippines but also emphasizes our focus on sustainable energy solutions.

Australian firm StB Giga Factory Inc. plans to triple its investments to \$35 million to expand its manufacturing capacities at the Filinvest Innovation Park in New Clark City (NCC) in Tarlac province. "We announced six weeks ago that we are accelerating our plans to triple the volume to 2,000 megawatts. It's a world-class scale," said StB ...

President Ferdinand R. Marcos Jr. on Monday, September 30 led the inauguration of StB Giga Factory, the Philippines' first manufacturing plant for advanced Lithium Iron Phosphate (LFP) batteries, at Filinvest Innovation Park, New Clark City, Tarlac. President Marcos Jr. was joined by Australian Ambassador to the Philippines Hae Kyong Yu, Trade ...

Australian-backed battery manufacturer StB GigaFactory Inc. is significantly boosting its Philippine footprint, tripling its initial investment to \$35 million (P2 billion) for its first factory in the Southeast Asian nation.

StB Giga is a joint venture between StB Capital Partners and Oli Power - leaders in the Asia-Pacific energy transition. Our pioneering 2GWh per year factory is transforming the Southeast Asian energy storage landscape by producing advanced Lithium Iron Phosphate (LFP) batteries for residential, industrial, and utility-scale Battery Energy Storage Systems (BESS)
